“ I always appreciated Ann's spirit, because she was a person of passion and dedication. She stood for what she believed in and never expected acceptance or thanks in return. I saw her commitment to the education and welfare of children in her volunteering and teaching at the local schools where she worked hard to give kids her best So they could do their best. She was interested in current events and local affairs and always engaged others to express their thoughts. My prayers are with her family as they go through this difficult time and I pray for peace for Ann, her family and all of us who were lucky to have her in our lives.

“ Rachel Hanson lit a candle in memory of Ann K Neal

“ I first met Mrs. Neal when she was a parent of a Strack student. Her son, Christian, was in my ELA class. It was clearly evident how important education was to her and her family. She was always very gracious and supported me as a teacher.

I then had the privilege of working with Ann at Strack. Her love and support of education became evident to anyone she worked with. She touched countless numbers of students' lives by investing in their futures.

Ann was also a very proud mother. She consistently gave me updates on Christian's education after Strack, including high school and with the Navy. She thanked me several times for being a part of his education when he was a sixth grader. She also thanked many of his teachers for helping him become the man he is today.

Most of all, Ann was a sincerely empathetic person with a heart of gold. In addition to keeping up with all of her students' names and needs, she also kept up with the names and struggles of my children over the 20+ years we worked together. She was genuinely interested and invested in their lives too, simply because that's just who she was. I've never known anyone to care so much for all people like Ann Neal did in her lifetime. She will be missed greatly.

“ *Ann was a kind, caring, and thoughtful person. I worked with her for many years. She was always looking out for others and willing to help whenever she could. I remember a while back, not feeling great; she came to school the next day with a care package for me. It contained Airborne, Tylenol, Vick's vapor rub, NyQuil, some tissues, and a can of Progresso Chicken Soup. I was so touched! To think that she would spend the time to get all those things and put it together to help me feel better! She was so concerned and cared so much that she took better care of me than I took care of myself! I will miss her. May she rest in peace! My prayers go out to her family!*
