“ I was blessed to know and work alongside my friend, Cathy, during our time as math specialists in Klein ISD. She had a genuine love for mathematics and a gift for making it come alive for others. Whether she was leading a presentation or collaborating with teachers, students, and staff members, Cathy taught with confidence, joy, and purpose. I often attended her math presentations, not only to learn, but to support her and witness the passion she brought to every space she entered. Beyond her brilliance in math, Cathy was known for her love of jewelry—each piece as vibrant and expressive as her personality. It was one of the many ways she shared her light, always reminding us that beauty and individuality mattered. During one of the challenging seasons of my teaching career, Cathy became my confidant. She listened without judgment, offered wisdom with grace, and stood beside me when I needed strength the most. Her presence during that time was a true gift, and her support is something I will forever hold close. One of the most meaningful moments we shared was when I presented Cathy with a special quilt of memory along with other special friends—stitched with love, gratitude, and remembrance. It was a small reflection of the warmth, care, and legacy she wrapped around so many of us in Klein ISD. Cathy’s impact as an educator, colleague, and friend will never be forgotten. Her legacy lives on in the countless lives she touched and the love she freely gave. “For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life.” — John 3:16

“ I met Cathy on my graduation day at Texas A&M in 1979. Cherry and I graduated together and our families were there with us. I saw Cathy often as an educator in Spring and at educator conferences throughout the years. She was such a cheerful and kind person, and she will be truly missed.

“ I met Cathy working for KISD. She served so humbly and passionately as our math coordinator and her joy & expertise in the role inspired me so deeply to learn from her as much as I could. Her laugh was quite infectious as well. Cathy worked closely with my campus and she would give me great feedback on how to continue support as well as modeled for me how to coach with teachers. When Cathy retired, I was pushed by a handful of folks to apply for her position but remember feeling so unworthy to follow in such giant footsteps. Her legacy was renowned and I wasn't sure I could live up to the excellent bar she had set. I chose to stay connected as she took on the role of Hand2Mind consultant and she helped me learn about various tools and resources; kept me connected with early childhood opportunities for PL and we soon became conference hoping buddies. Meeting up in the exhibit halls and having dinner in the evenings. We still talked math and jewelry and spent a lot of time laughing. I'll never forget our last conference together in Oct of 2024- we hung at the back of the exhibit hall laughing about our times in KISD & the incredible people we worked with. Cathy was the sweetest lady and I'm grateful we got a chance to bless her with a loving quilt when she came home from the hospital early 2025. She was a miracle to us! Prayers of comfort to the Lejeune family. You guys are so blessed to have had her & we hope your hearts remain full.

“ Cathy was an amazing lady and I met her through church activities and ministries at church. I was always appreciative of her giving and caring spirit as well as her time she freely gave to church activities! She decorated the processional crosses for several years and they were always beautiful. What a role model for caring and loving others. She left a beautiful legacy.

“ Cathy ... always good for a beautiful smile!! I met Cathy while we worked for KLEIN ISD. She was such a great person and such a go getter!! When she got into the planning & teaching mode during our Instructional Specialist meetings, her face would light up with such excitement and passion. I also attended and hosted her Premiere Jewelry shows/parties. She loved to show & tell about the jewelry. Once she retired from KISD, we still stayed in touch through her new role as Houston area Hand 2 Mind Sales Rep. she continued to support me and my campus through professional development sessions and fulfilling orders. I then had the privilege of seeing both Cathy & Mitch at TIRR in The Woodlands. Both Cathy & my brother participated in therapies there. It was so great to see her gorgeous smile as we visited before their sessions. LeJeune family, know that Cathy will truly be missed and that she had such an impact on so many individuals ... both students & adults. Prayers of peace and comfort to you all.
