“ *Ray and Sue were in our Sunday School class and sat across from us for years. Their legacy is large. They were so special. You are in our prayers during this time. Praying for sweet memories and the Lord to hold you up. I have a photo of them with their heads together sharing one BIBLE in class. That is my example. It has been on the refrigerator for many years and I took it down to mail to you. It is a treasure of their lives. I hope to find a way to get it to you soon. Love in Christ, Joe and Judy Veale*
