“ I will miss you so much Grandma. You taught me some of the most valuable lessons in life...like Friends are like autumn leaves, they come and go...but family is forever. Like, how to kick ass and chew bubble gum...but we were always out of bubble gum...but mostly that love was the most important part of life. Whether that be your family, Husband ( who she said she would take if I didn't want him), your friends that stick by you, and the world that needed help. She taught me to be a strong, resilient, loving, caring woman, and I am forever grateful I had her in my life.

“ Good-bye, mother, see you again on judgment day, where we will both be admitted into paradise, we will part no more over there. Farewell to a great woman, no one can take your place mom; it is with a painful and heavy heart that I have to say this goodbye to you, it now a reality that I would never see you again in this world. When I realized that you would be gone forever, I know a part of me was also gone, you have a piece of my heart with you mom. I want you to know that no one can take your place in my heart mom and you will always walk by my side where ever I go. Deep in my broken heart, I feel the pain of your departure; I know that life can never be the same again because I have lost a beautiful part of my life. It is going to be hard to face life alone without you; you have always been the bedrock of my life. I love you every day. And now I will miss you every day. Mama, you may have gone, I still keep you close to my heart, and nothing can make me forget all the good and beautiful times that we shared together. I love you. Farewell, mama, Your Son Jimmy
