“ *Kelly world best uncle and friend,*

It's hard waking up and realizing that I will never be able to call you and try to figure out how we could get rich, or meet you for lunch and catch up because i had been offshore. For as long as I can remember you have always been there, just to talk when I couldn't get along with my mom. To give me a job that got me through high school the hole time putting up with a stupid kid who took every wrong turn he could because he wanted things easy. Or give him a truck that you bought to make you some money, and watch me wear it out till it's done. It never matter what when how or where you were the one person that no matter what i always knew that I could count on you. I owe a big part of the person i am now to you. Thank you for the time you gave me and for caring so much, I lost more than my uncle I lost my friend. I feel so lost today thinking about all of my memories of you good and bad. I wish I could could get a call from you today at and hear you say (hey Nephew) when I answer your call. I don't have the word to express how much you are live and going to be missed by me.

Love you uncle Kelly
