“ Lenda and I were neighbors for many years. We shared a lot of times going to the grocery store together, and would take her to some of her Dr. appointments. Grocery store trips were a trip. She would ride around in the little cart and I would follow with a push basket, they were both usually loaded, the hardest part was the unload at her house, which I had to climb the stairs and she would take inside. That ended when she got to fragile to go anymore. So I would make small trips to the store for her. We used to laugh, until tears would fall, we were both so funny, at some of the things we were talking about. Her kitty's were special to her. Most had come to my house, after she had so many trips to the hospitals. I miss her, she was special to me. One of the last messages she left on my phone, was Johanne you are my best friend that I have ever had in my whole life. I love you my friend, and will always remember you. I do not have any family here in Texas, So I felt like she was the sister that I never had. RIP.
