Nancy was a very fun cousin. She loved to work on family history and loved her dogs and loved showing them. She will be missed. Nancy was a good soul and did a lot of volunteer work. She was retired from Amoco. Sympathy to Sonny, her kiddos, friends, puppies and the rest of the family. Thank you to her friend who will continue caring for the puppies. Nancy also loved running marathons. She lived a full life. Love ya Nancy and see you again. Mary

Nancy was amazing. She loved genealogy and was a lifelong contributor. I remember the first time I met her in person, almost 20 years ago at a homecoming conference we held at the Cumberland Gap, paying for it out of our pockets and passing the hat. She came up to me, pressed a \$100 bill into my hand and thanked me. She asked me to remember her, because "we're probably related." We never found a link, but I remember her because of her kindness. It was so nice to see her again in November. I'll miss her.

BM

Nancy and I grew up together on State st. In Emporia Ks. We kept in touch and visited each other when we could. I counted her as one of my best friends of our growing up days.

I just found out Nancy had passed. She was my 6th cousin, I think. She showed up in Wyoming one day, found my mom and me and visited for hours. Last time she was in the area, she came to dinner at my house. I really missed getting to know a wonderful person. I'm glad the puppies have a home.

Nancy was a high school classmate of mine. Actually, I remembered meeting her in junior high when we modeled in a style show. She was a beautiful young lady! I have enjoyed visiting with her at our reunions. I am sorry to hear about her passing. Sherry Feltner Thomas

Nancy and I were best friends for 65 years. Last text was New Year's Eve with no response. She was always so active and vigorous as she traveled around the country searching for relatives and going to doggie school and shows. So many overseas trips with Sonny. And hiking until her knees gave out!(Never thought to look for an obit until today) We shared every nook, cranny and horror story of our lives since we were 16 when we walked to school together. I guess it's true that opposites do attract! She always stayed with me when she was in or near Kansas. Of course there were the three hour phone calls! Although she was a no meat gal, we would always go out for chicken fried steak with extra gravy! As for the class reunions, in the later years, she would always say "I'll go if you go". I regret that we decided not to go to the last one. I will forever miss my dear, dear friend and cherish the time and memories that we shared. Nancy was definitely one of a kind!!
