

Stanley Bradford

October 9, 1956 - June 22, 2024

Stan Bradford, 67, of Tomball, Texas, passed away unexpectedly on June 22, 2024. He was a devoted husband to Rosilene and a loving father to Jennifer, Christopher, Lara, Kevin, and Michelle. He also leaves behind his older brother, Richard.

Stan Bradford was a man with an infectious sense of humor that always loved to make people laugh, whether it was with an inappropriate joke, witty come back, or smudging someone's glasses as he told them their glasses were dirty. He also had a big heart and enjoyed helping people. Stan loved his kids more than anything else.

He was born in Enid, Oklahoma on October 9, 1956 to Ruth and Marion "Owen" Bradford. Stan grew up in Garber, Oklahoma where he graduated from Garber High School in 1974. In his younger years, he enjoyed hunting, working on his 1968 Camaro, and playing fantasy football. He went on to earn a Bachelor's degree in Petroleum Engineering Technology from Oklahoma State University before working at Dresser Titan/BJ Titan in Enid. Stan went back to OSU for a second bachelor's degree in Mechanical Engineering, then moved his family from Stillwater, Oklahoma to Tomball Texas in 1991 to work at BJ Services (now Baker Hughes). He still enjoyed his wonderful work family until his passing.

Stan was married to Rosi in Nova Iguacu, Brazil on April 1, 2005. They met while he was working in Rio de Janeiro. Rosi moved to Texas with Stan where they have been raising Lara and Kevin. They loved to travel and have fun as a

family. In his free time Stan enjoyed eating at restaurants, watching movies, golfing, and playing with his cats.

“ Stan and I first met in 1975 or 76 playing Foosball at Eskimo Joe’s. We were both going to the OSU School of Engineering so we had a few classes together over the next couple of years, and more than a few beers at EJ’s.

Fast forward to about 1986, I was on location in Bakersfield, CA checking out the Titan 125 blender. It was a really foggy morning and some Titan guy came up to me and asked if I was Ronnie Hughes? Sure enough Stan had his frac crew from Enid, OK out there helping on some jobs. Stan was laid off shortly after that and went back to OSU and got his ME degree.

Upon graduation, he was in Houston interviewing for a job at a refinery and stopped by Tomball to visit with John Willingham, who was a legacy Titan guy too. John brought him down to Engineering and Stan and I caught up on everything. We were looking for people so introduced Stan to Jerry DeLaat. Jerry wasn’t too excited about hiring another “field” guy with no engineering experience.

But BJ hired Stan and he and I became the Worldwide Stimulation Group of Two! We had a lot fun with the Cementing group and Stan especially liked to pick at John Ryan for working on the same cementing skid for years.

When I was transferred overseas, Don Wade and Stan finished up the Maracaibo Stimulation Barge and his very successful career building Stim Vessels began.

We kept in touch after I left BJ during OSU football games. We were either complaining or bragging depending on the game. Sometimes the same game!

He always liked to bring out this picture.

Stan was a very good engineer and family man. You will be missed Cowboy!

“ *Things I remember about Stan; He loved his mother, Gramps and brother Richard. Stan's father died in a blizzard on Christmas Eve. Stan always made sure he was with his mother on Christmas Eve. Stan was only ten years old when his father died. Richard was his role model. These are early memories. I have not been around Stan for many years.*
